

Connected, actionable data and true Elation Health integration

CoachCare leverages built-in Elation workflows that allow practices to enroll and monitor their remote or chronic care patients efficiently without having to learn new systems.

Bidirectional Enrollment by Services

Exchange of Health History

Integrated Discrete Vitals

Escalation Tasks

Compliance Documentation/Integrated Care Summary

Automated Claim Generation

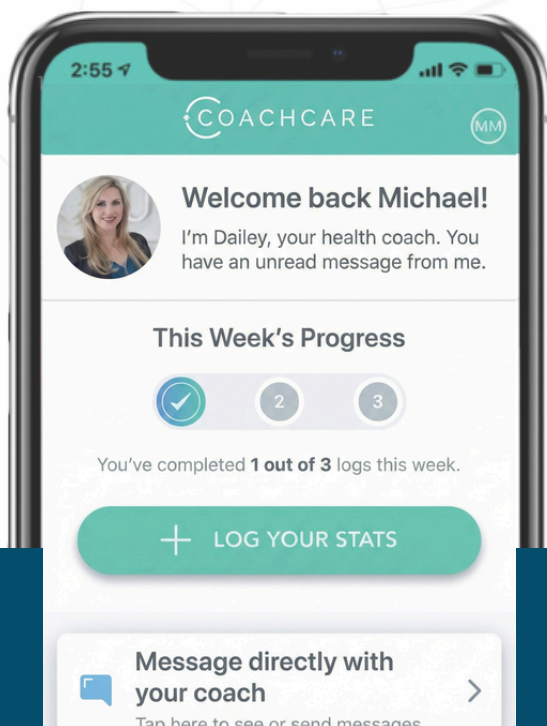

Key to achieving a program that is efficient, effective and sustainable, is creating a seamless, intuitive user experience for the patient and provider, and that's what our integration with Elation accomplishes.

Lynn Jazmin, VP of Product

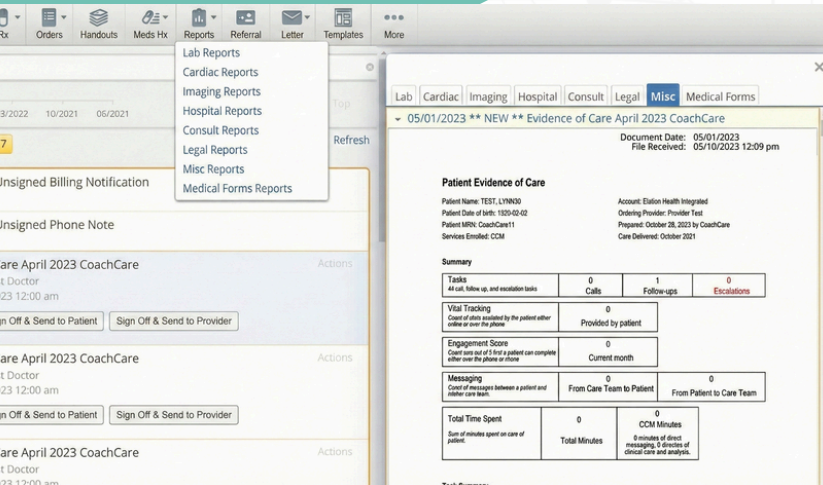

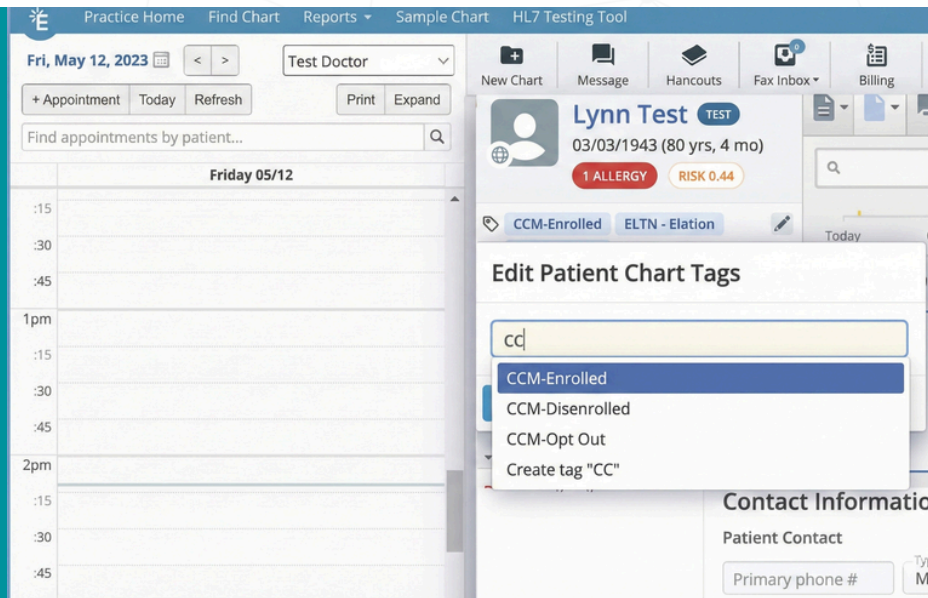

Elation Health users have access to the uniquely comprehensive features of CoachCare's remote care programs:

- Telephonic Patient Enrollment
- Dedicated Team of Care Managers
- Cellular Connected Devices
- Automatic Claims Creation

Integrated Ordering and Enrollment

Through the fully-integrated CoachCare platform, our team enrolls qualified Medicare patients for the practice, prompted by enrollment flags and trigger ordering by service. Practices can see enrollment status real-time in the existing clinical workflow, and patients begin receiving CCM and RPM services in less than 5 days.

Integrated Documents and Claims

CoachCare is the only care management app integrated with Elation Health providing automated claims creation via the CoachCare billing engine, eliminating the manual claim creation step for each patient, every month.
